I know how difficult it was to get started in the Adult Biz of Second Life. Not only finding affordable land space and facilities, but also just setting up and getting some traffic. Well we at VampIsle.com may now begin to offer both, including our very unique BabeBot Rentals.

With regards to Bot Rentals, please IM "WestCat" or send a note card or drop one off at the respective Mail Box by the Rental Areas. Yes they are expensive, but only relative to what is offered in Second Life.

*If you know better and more affordable, **BABE-Bots**, then please let us know ASAP 😊 ...*

To start off with, here are a few video tours;
